

**THE NATIONAL
DEVELOPMENT
COUNCIL**

May 17, 2006

To Whom It May Concern:

Our company, the National Development Council, recently moved offices and hired BCM to manage the movement and installation of our phone and data lines. BCM's Juan Rodriguez made the entire process easy for us, helping with all facets of our move, from placing our order to coordinating the installation and troubleshooting some data line quirks.

I would recommend BCM to any firm that wants its telephone and data move to go smoothly. We were glad to have BCM on our team and we still consider them valuable telecom teammates.

Please call me at 212.682.1106 if you have any questions.

Sincerely,

Kyle Canon
Deputy CFO
National Development Council
